Paschal Chisom Ahanotu

London, UK | 07388892504 | ahanotupaschal015@gmail.com | LinkedIn, Portfolio link

Professional Summary

Data-driven and results-oriented Data Analyst with 2+ years of experience leveraging analytics, data storytelling, and machine learning to drive business insights and decision-making. Adept at SQL, Python, Power BI, and Tableau, with a proven ability to optimize data pipelines, automate reporting, and uncover actionable insights that enhance operational efficiency. Passionate about solving complex problems in healthcare and business analytics, with a strong foundation in pharmacy and data science.

Technical Skills

- **Programming & Query Languages**: SQL, Python (Pandas, NumPy, Scikit-learn), DAX
- **Data Visualization**: Power BI, Tableau, Excel, Looker Studio
- **Machine Learning & AI**: Predictive Modeling, Supervised & Unsupervised Learning, Deep Learning
- **Data Wrangling & Analysis**: ETL Processes, Data Cleaning, Feature Engineering
- **Database Management**: MySQL, PostgreSQL, Snowflake
- **Project Management**: Agile, Jira, Stakeholder Communication
- **Soft Skills**: Analytical Thinking, Problem-Solving, Team Collaboration, Data Storytelling

Achievements

- Optimized Sales Strategy: Built a Power BI dashboard to track sales trends, resulting in a 20% increase in over-the-counter (OTC) sales at Gemrock Pharmacy
- Automated Data Processes: Developed Python and SQL scripts to automate reporting, reducing manual workload by 15% and improving report clarity.
- Enhanced Operational Efficiency: Implemented a data-driven workforce scheduling model, reducing staffing inefficiencies by 25%.
- Improved Customer Insights: Leveraged SQL to analyze customer purchasing patterns, leading to a 30% improvement in personalized marketing efforts.
- Built a Machine Learning Model: Created a logistic regression model to predict COVID-19 risk factors for multiple sclerosis patients, improving forecasting accuracy by 40%.
- Enhanced real estate lead generation and conversion rates through targeted strategies.

Work Experience

Data Analyst Intern

Voyaj AI | February 2024 – Present

- Conducted exploratory data analysis (EDA) on health insurance datasets to identify trends and correlations, improving decision-making.
- Developed interactive dashboards in Power BI to present actionable insights to stakeholders.
- Led a project on COVID-19 impact analysis, building a machine learning model for predictive analytics.
- Automated data pipelines using Python and SQL, reducing report generation time by 30%.
- Enhanced reporting accuracy by 15% through the implementation of structured ETL processes

Data Analyst

Gemrock Pharmacy Ltd | April 2024 – November 2024

- Analyzed customer purchasing patterns using SQL, identifying popular products and boosting sales by 20%.
- Developed executive dashboards to communicate key insights, leading to data-driven decision-making.
- Implemented data tracking systems for controlled substances, ensuring regulatory compliance and accuracy.
- Identified inefficiencies in daily operations, leading to workflow optimization and a 25% reduction in delays.

- Analyzed and interpreted market trends using Power BI and Python, achieving a 15% increase in annual sales.

Intern Pharmacist

Hospitals Management Board, FCT Abuja, Nigeria | March 2021 – March 2022

- Managed medication inventory and ensured 100% compliance with pharmaceutical regulations.
- Assisted senior pharmacists in dispensing over 1,500 prescriptions monthly with high accuracy
- Educated patients on proper medication use, improving adherence rates by 20%.
- Built a machine learning model using **Python and Scikit-learn** to predict article popularity, achieving a 90% accuracy.
- Led AI model deployment initiatives, improving customer retention by 20%.

Business Analyst

Advocate Realty And Global Services, Nigeria | Dec 2022 – sep 2023

- Analyzed and interpreted market trends using **Power BI** and **Python**, achieving a 15% increase in annual sales.
- Overhauled performance management systems using **Snowflake**, leading to a 15% improvement in employee performance metrics.
- Analyzed property values, rental yields, and cost structures to enhance profitability.
- Conducted location-based analysis to identify high-growth areas for real estate investment.
- Implement automation and data integration for improved decision-making.

Professional Traits

- People > Numbers: I understand that behind every data point is a person, and I approach workforce analytics with empathy and precision.
- **Stakeholder Engagement**: I collaborate closely with HR, leadership, and business units to ensure people data drives strategic decisions.
- **Problem Solver**: I identify root causes, find scalable solutions, and ensure continuous improvement in HR analytics.
- **Data Storyteller**: I have the ability to translate complex data findings into clear, actionable insights.

Education

- **Master of Science in Data science and Applied Artificial Intelligence |** Solent University, United Kingdom
- Bachelor of Science in Pharmacy | University of Nigeria Nsukka, Enugu State.

Certifications & Courses

- **Introduction to SQL** – DataCamp (November 2022)
- **Applied Data Science Lab** – WorldQuant University (January 2023)
- **Data Analysis Levels 1 & 2** – Entry Level Academy (September 2023)
- **Excel & Power BI for Data Analysis** – Voyaj AI (November 2024)
